## Profile

I am a 23 years old HCID student, currently enrolled in an EIT ICT Labs double degree program. I am a young professional currently looking forward to complete my studies with an internship and dissertation in a company.
I am also a young entrepreneur, currently in the process of co-founding Tripster, a startup that will operate in the field of Urban-Life and Mobility.

## Education

### EIT ICT Labs double degree program
2013 - 2015 (expected)

**Royal Institute of Technology**
**Université Paris-Sud**

| | |
|---|---|
| major | **Human-Computer Interaction**<br>mobile & ubiquitous interaction |
| minor | Innovation & entrepreneurship |

### Bachelor degree
2010 - 2013

**Università degli studi di Trento**

**Computer Science**

| | |
|---|---|
| grade | 109/110 |

## Awards & Scholarships

| 2014 - EPA France | Champion de France |
|---|---|
| 2014 - HEC | 1° Place - Journeé Entrepreneuriat Etudiant |
| 2014 - ITS App Competition | (Otrip) Special Prize AppCampus funding |
| 2013 - 2015 | EU Excellence scholarship |
| 2010 - 2013 | UniTN merit scholarship |

## Other interests

During my free time, I'm a keen drawer and like to sketch, paint and illustrate. I recently found a passion for photography.

## Work

### Delta Informatica
Jan - Jun 2010

UI/UX Intern, .NET developer
on the PRESTO XVR project.

My role in the PRESTO XVR project was to develop a GUI for mediating information between an AI system and an expert user, and to design the future in-game interface for the XVR serious game. The GUI system is still in use, with some minor changes.

### Università di Trento
2011-2013

Network administration & student's help desk

## Projects

### Tripster
cofounder

Tripster reshapes how people travel with other people. The project was recently awarded with a special price from the ITS competition in Helsinki.

### Settlr
cofounder

Settlr aims to create an innovative services for foreign students in order to help them settle in a new city. Settlr represented France at the JAYE conference in 2014.
